Byte Busters

WHAT WE BUILT

A unified platform that turns student responses into clear, personalised guidance.

ASSESSMENT

Eight factors. Two timing modes.
One fair, consistent experience.

TIMING & BEHAVIOR

01

Timed

15 seconds per question

02

Untimed

Career Interests
Family Feasibility

03

Timeout

Unanswered timed question
scores 0 and auto-advances

ANALYSIS

Four signals that guide personalised decisions.

STUDENT FIT

How well options align with strengths and preferences.

FAMILY FEASIBILITY

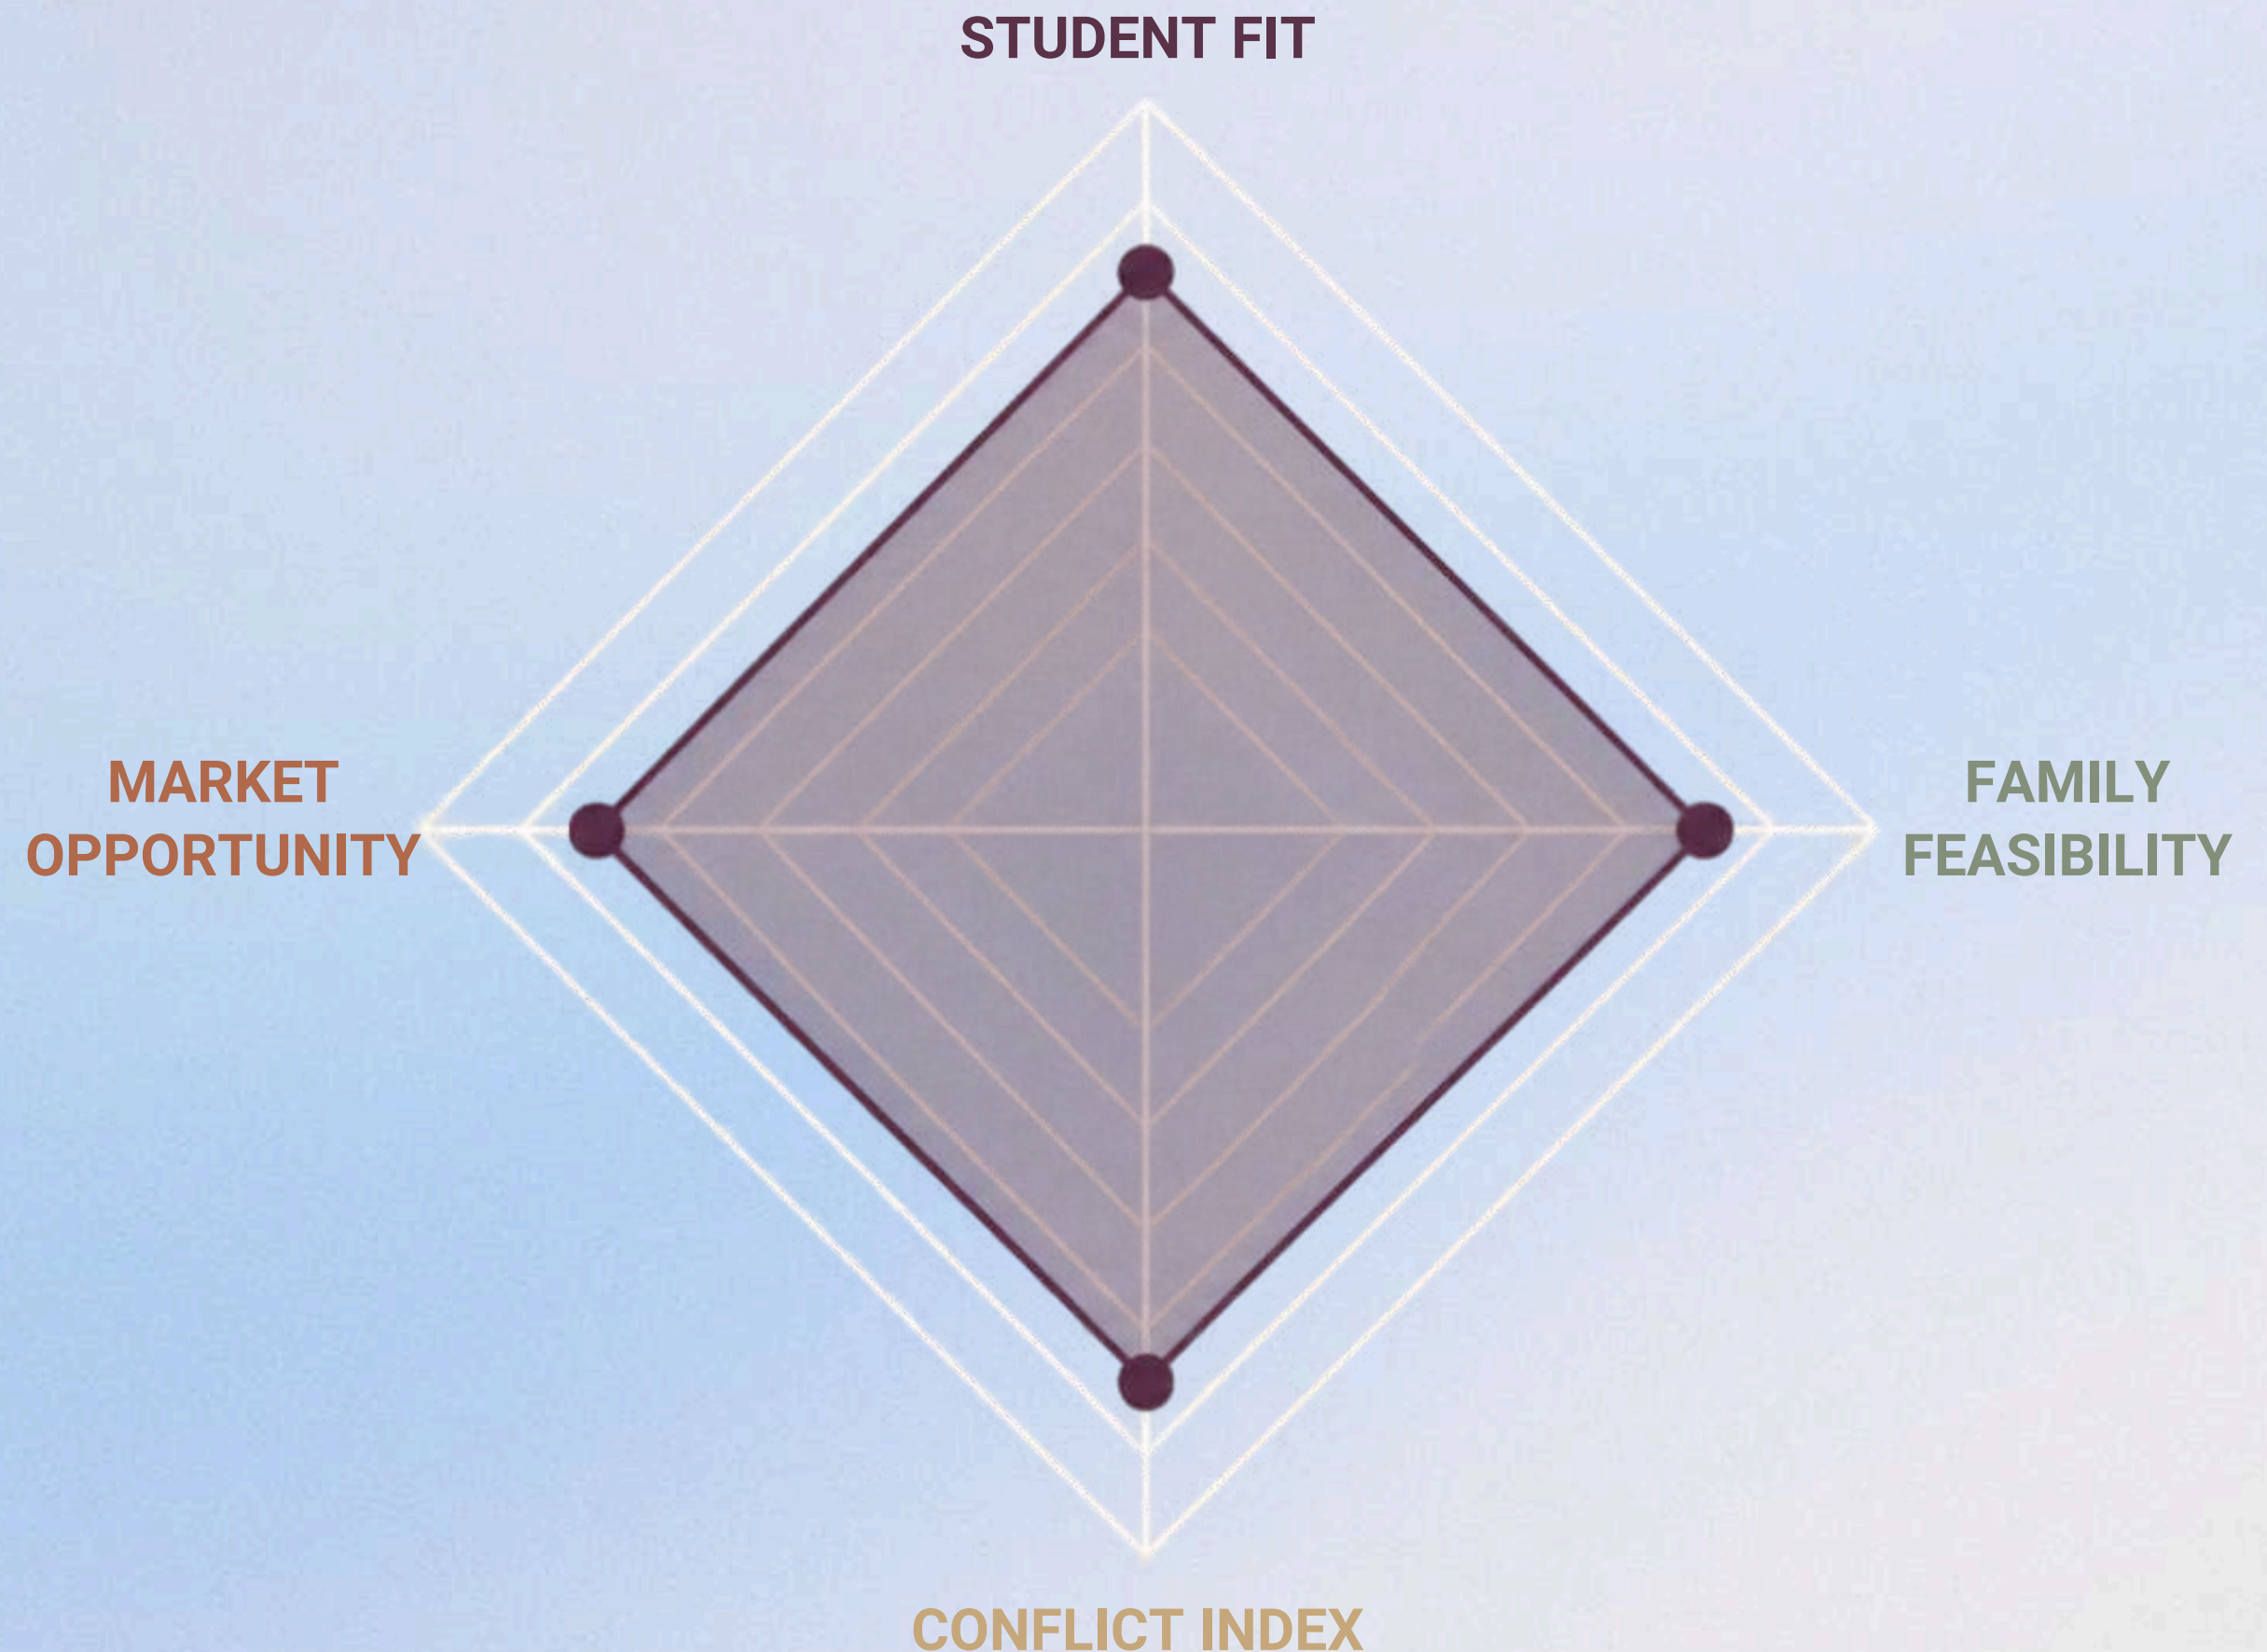

Practicality based on time, resources and constraints.

MARKET OPPORTUNITY

Demand and momentum in relevant pathways.

CONFLICT INDEX

Potential clashes that may impact the path forward.

RESULTS

01

ML prediction output

Our model generates clear, actionable predictions.

02

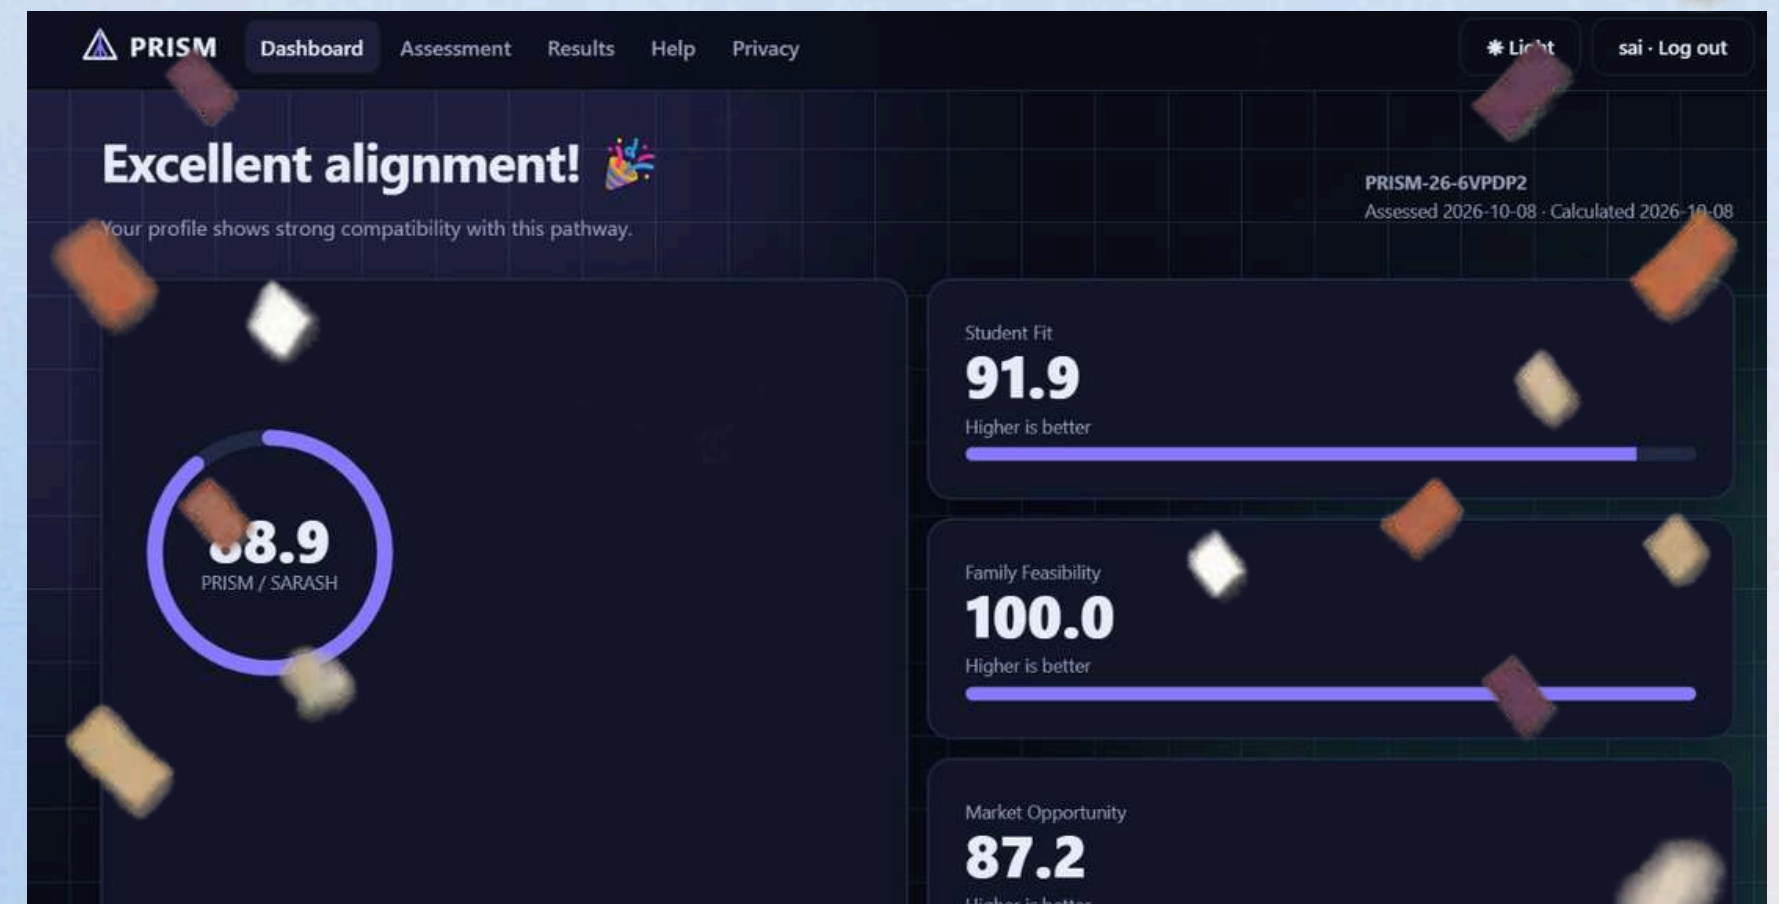

Downloadable result

Students can download their personalised results instantly.

03

Excellent-score celebration

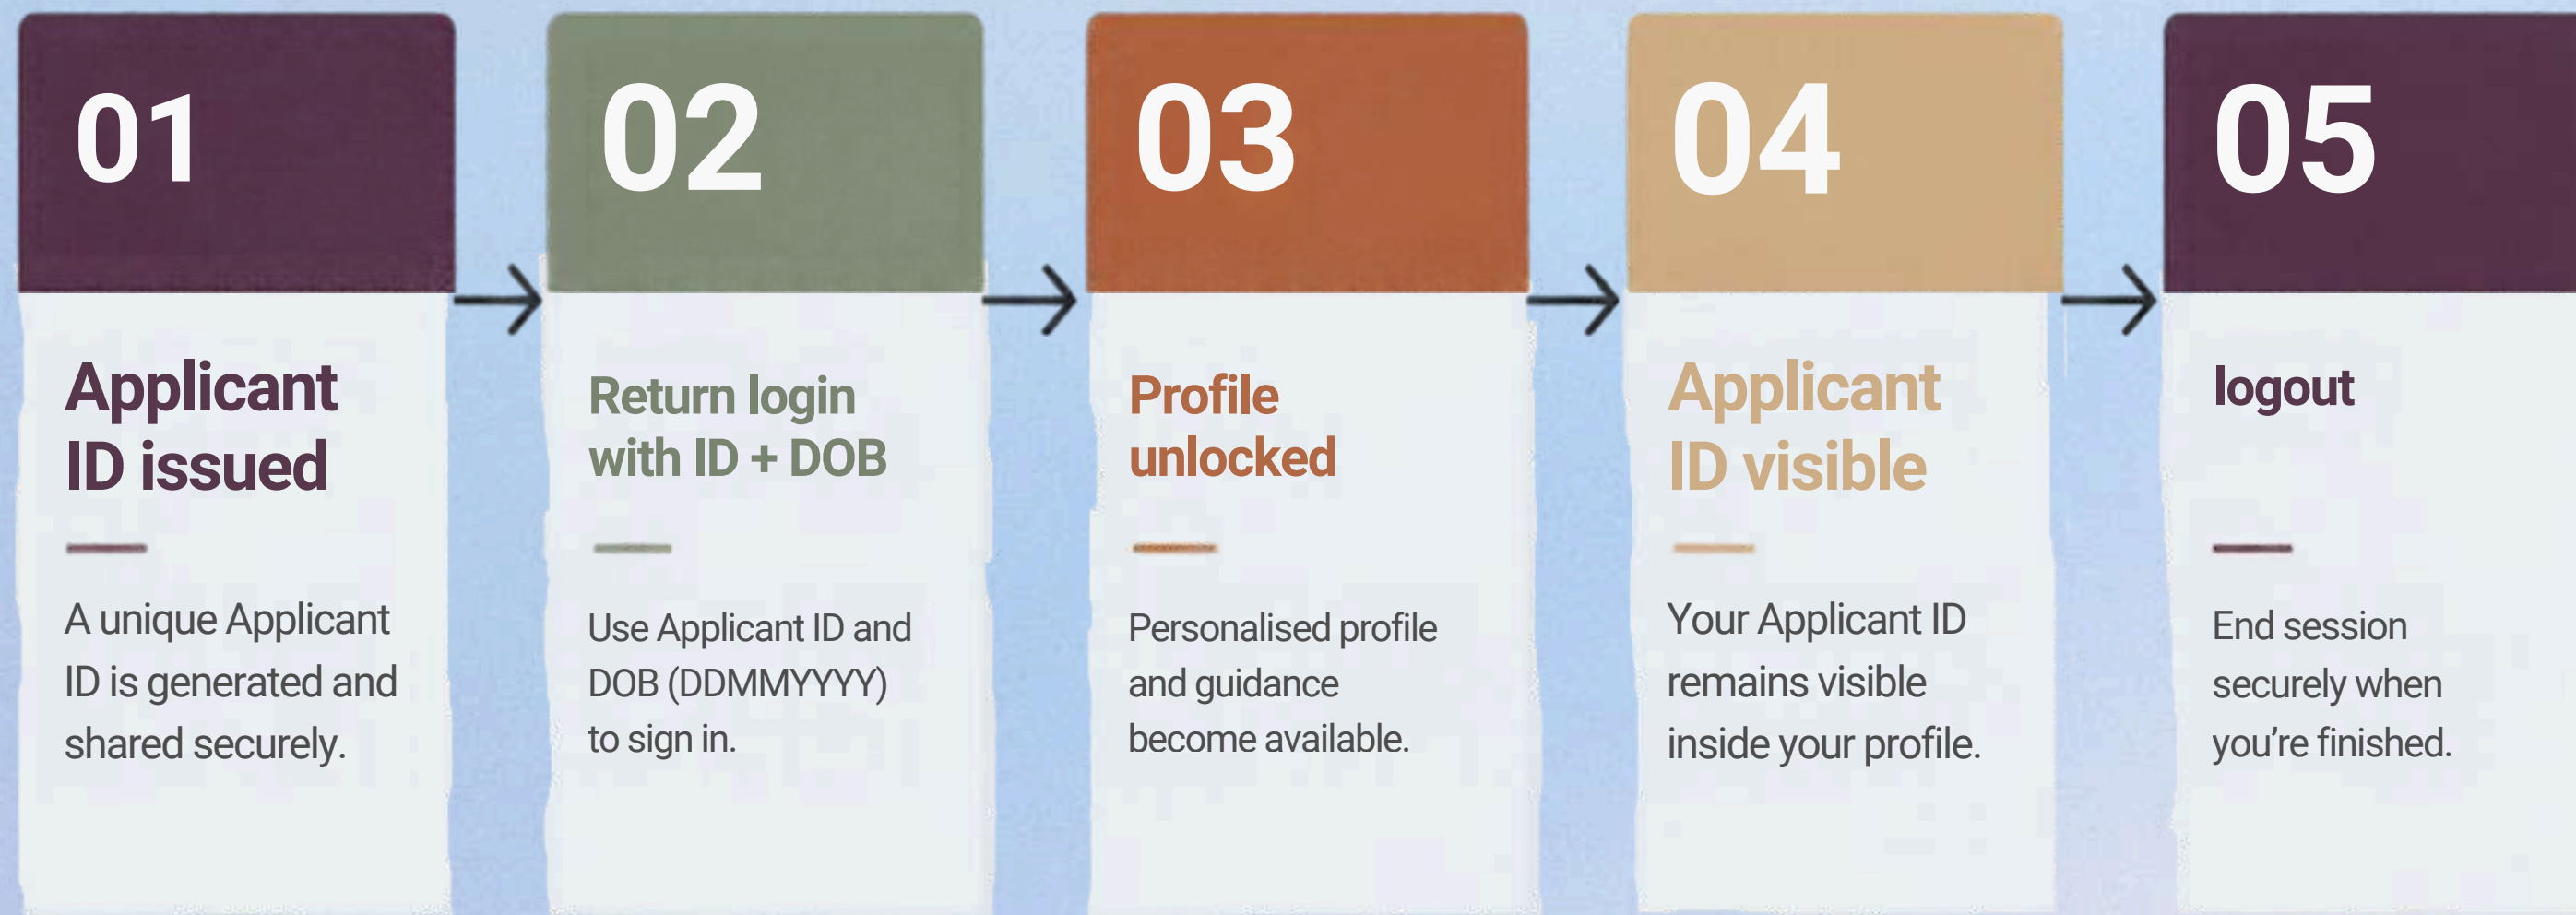

High achievers are celebrated with a confetti success state.

APPLICANT FLOW

A clear path from identification to personalised guidance, with a separate admin access.

APPLICANT JOURNEY

ADMIN ACCESS

A1

Admin login
—

A separate admin login provides secure system access.

AI GUIDE

Our built-in assistant delivers fast, clear guidance, in the way students choose.

Multiple ways to ask

Type, upload, or speak.

Helpful by default

Smart suggestions and next steps.

Built for action

Edit, refine, and regenerate with ease.

Transparent and trustworthy

Code you can review, copy, and learn from.

 **PRISM AI Guide** 

 Using your SARASH results · market data: periodic snapshots

Which career has the strongest market?

Current market indicators for Data Scientist
(Market score 87.2/100):

- SARASH market seed (Prototype baseline, as of n/a): Built-in baseline used to seed the model.
- Naukri JobSpeak (Observed, as of 2026-10-06, Fresh): Mapped to the AI/ML hiring segment for the prototype.
- foundit Insights Tracker (Forecast, as of 2026-01-14, Stale): Data roles are included among the strongest 2026

 Ask me anything... 

UI / INTERACTION

A responsive interface that feels consistent, clear, and effortless across **every context**.

ADAPTIVE BY DESIGN

One experience, perfectly tuned from mobile to dual-screen.

FEELS IN EVERY STATE

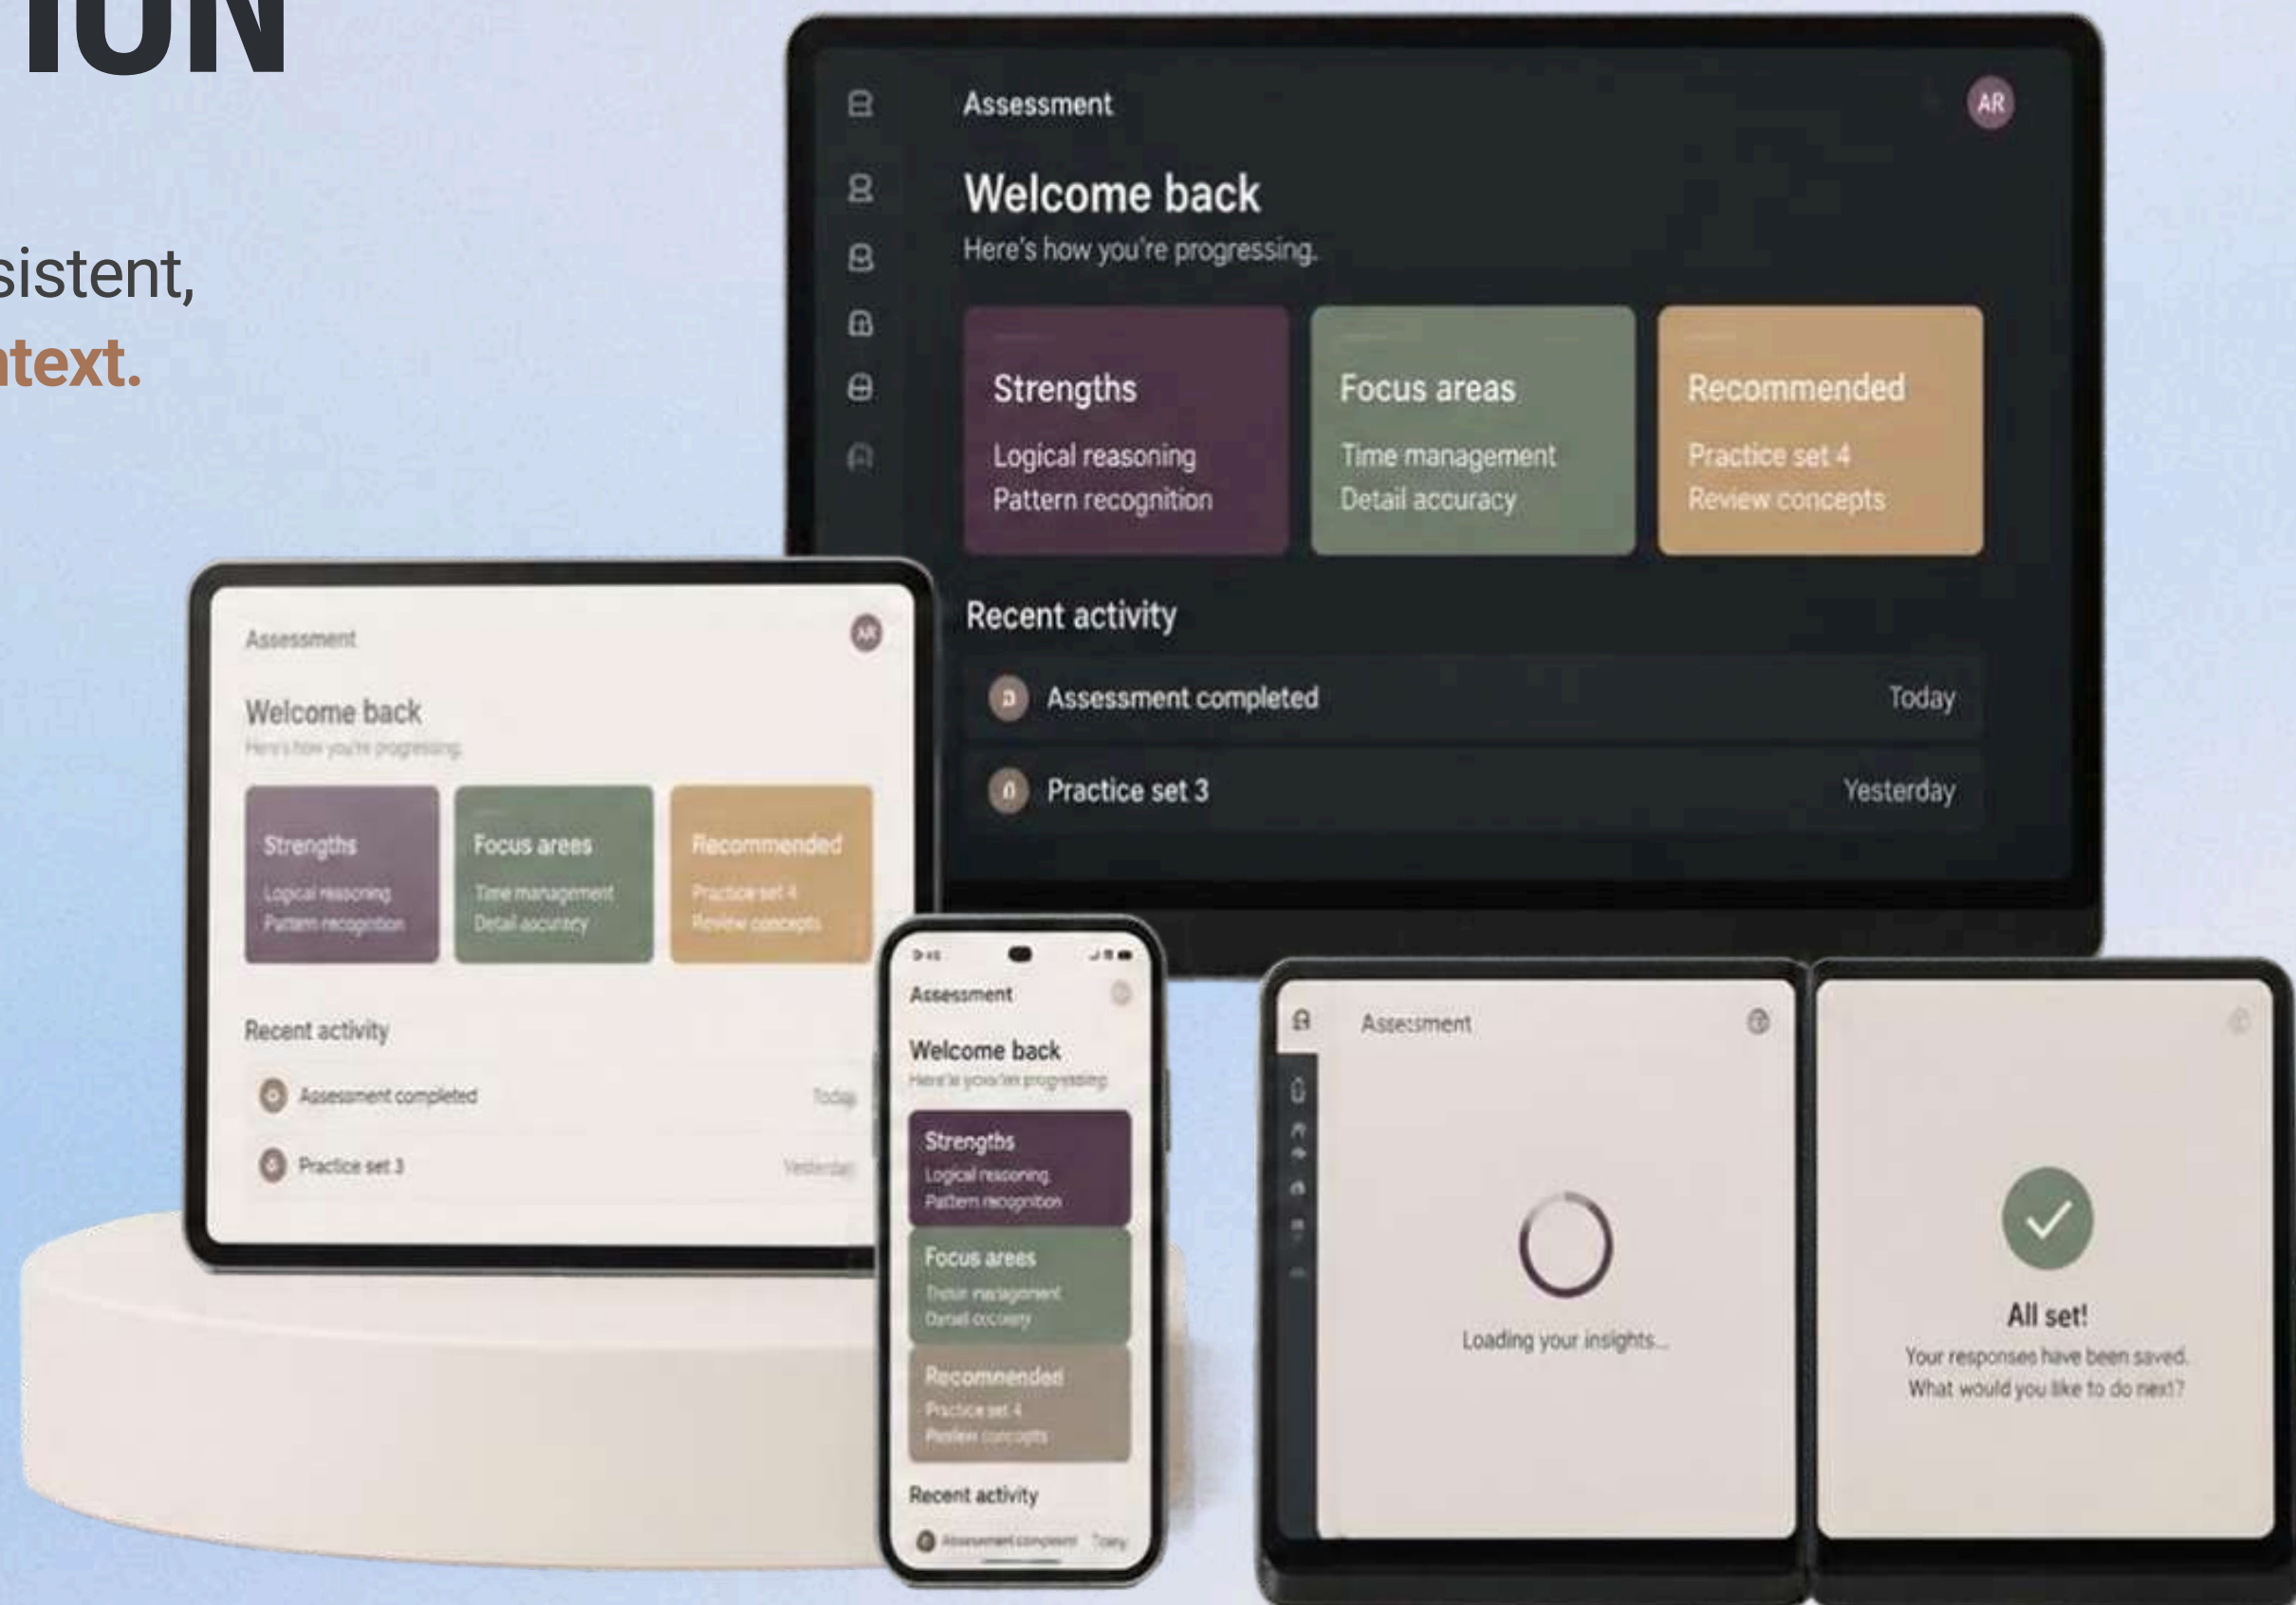

Thoughtful loading, empty, success, error and confirmation states.

SMOOTH & REFINED

Subtle transitions and microinteractions that guide without distraction.

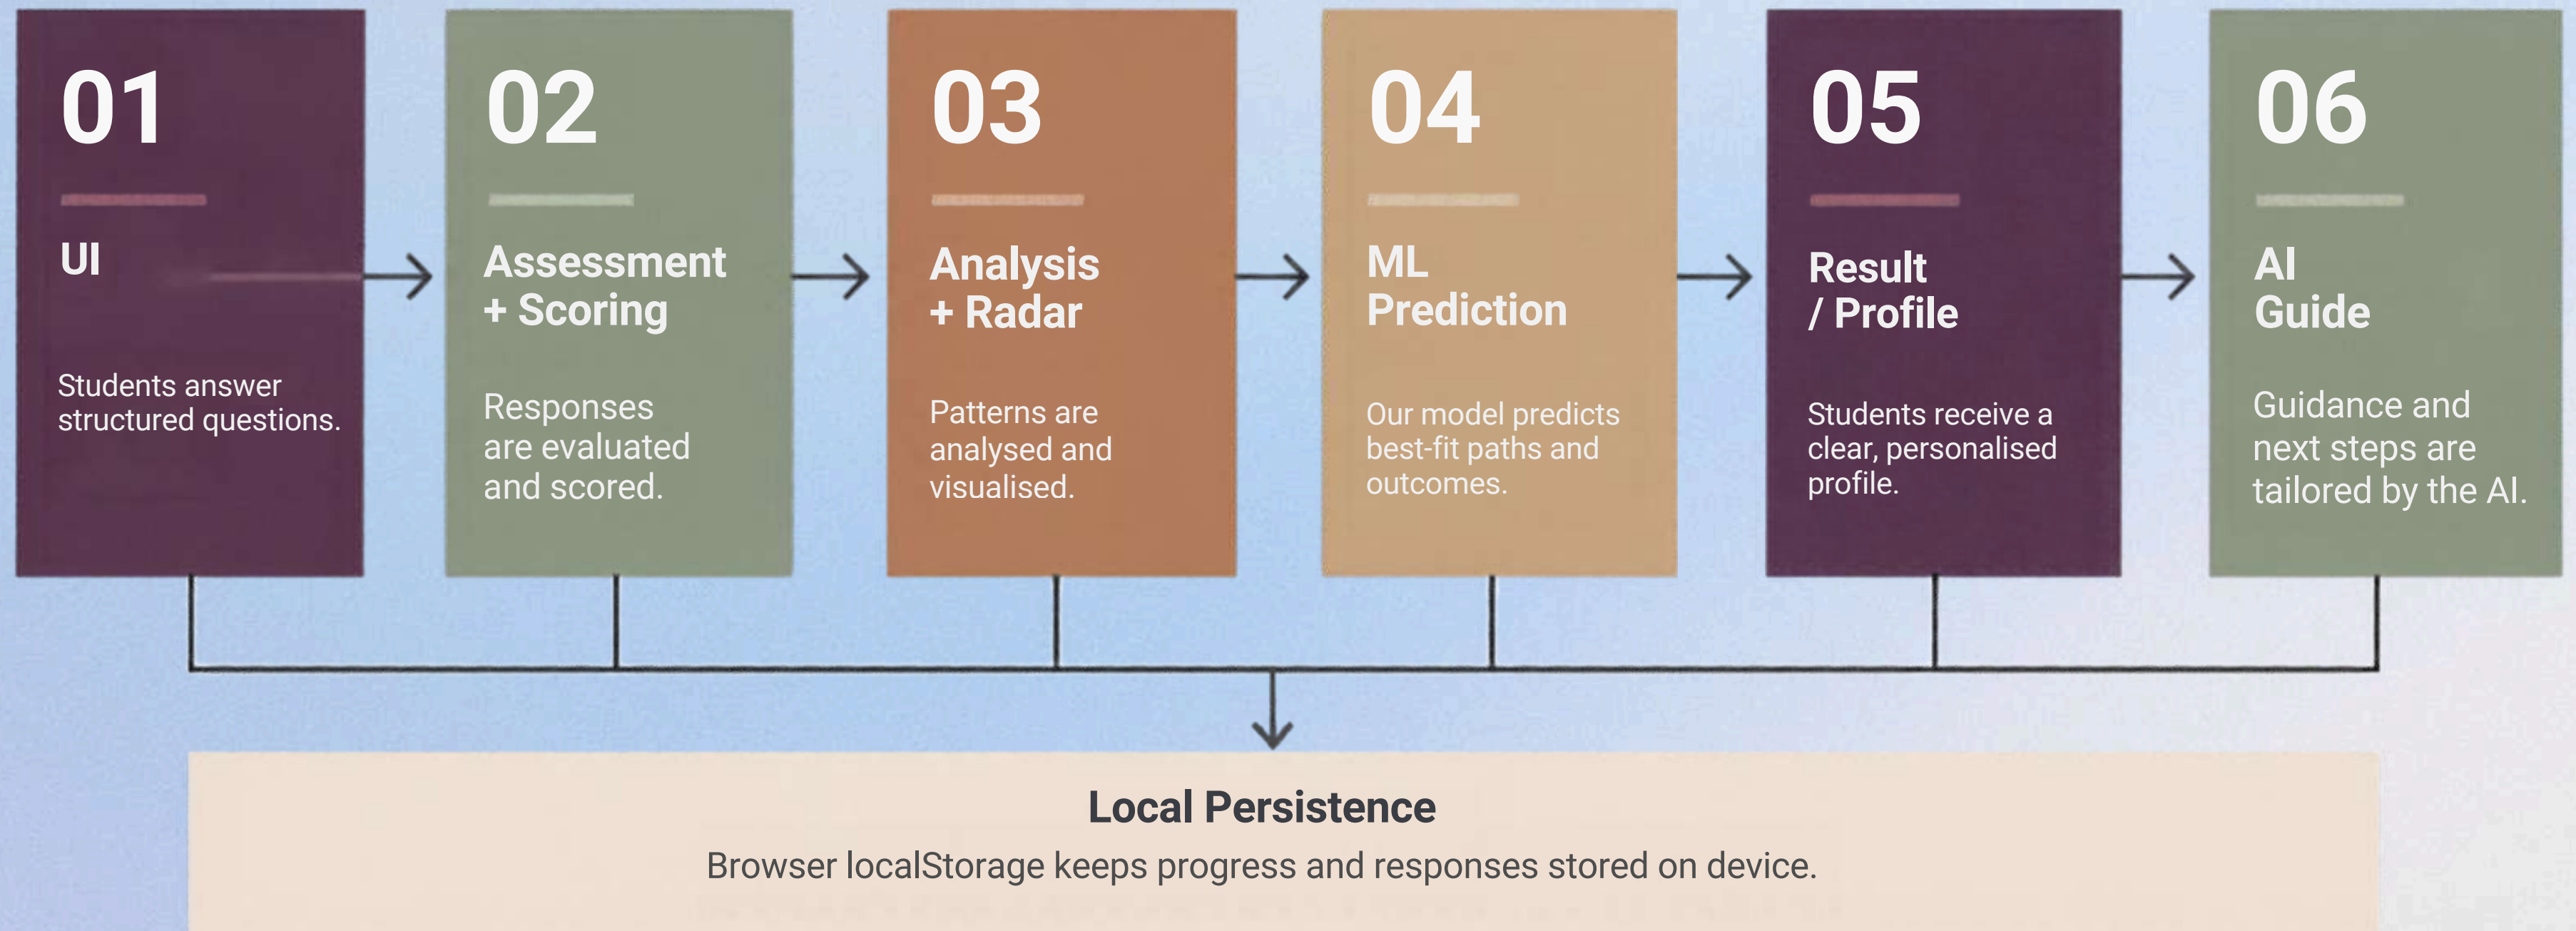

LIGHT OR DARK

Seamless theming to match any environment and reduce fatigue.

SYSTEM FLOW

How responses move through PRISM
from input to guidance.
